Should I send Byron a note or give him a call to reassure him that he is doing a great job?

I certainly do not think that is necessary or expected. But only if you want and are comfortable, you could use the Jeff note to send Byron (and Ben for that matter) a note thanking him for helping sort through the very fraught small refinery issues (I note that Byron's contributions to the hollyfrontier process may have been less visible but he really is the program manager of all those issues and as you saw from Jeff's note they can get very personal and strident).

Thanks

Just called you. NO RUSH to call back. Have a non time sensitive substantive question that will keep. Thanks

I can talk now if that works for you?

Would it be easier for me to get on the (teams) phone with you to make changes to the pwpt?

Just checking in to make sure you have everything you need for the next couple of meetings!

All set. Thanks

It looks like I will be able to catch the second half of the ECOS Q and A session

Yes, the last 20 minutes. Iâ€™ll check in with OCIR to see if that will suffice.

I think heâ€™s just providing an advance copy for you to edit/approve. Iâ€™ll go back in to the email to check.

Thanks

Yes, they are providing an advance copy for your review. I donâ€™t see in my email at this time a deadline associated with needing to respond. I can check on that tomorrow. This would be for the Administratorâ€™s signature so at some point this will come for your concurrence...but weâ€™re not there yet.

Ok

Thanks

No worries. All good. Thanks for fielding the question at this late hour

I am almost paralyzed by all the choices.

Hehehe, this you get overwhelmed by?

Iâ€™ll try

Thanks

Only if easy

Biogenics is starting

I am on.

I see I missed your call. But I don't want to ring you back bc I think you're in with the Admin. How can I help?

Thanks, Ann. Are we all set with getting the RFS Overview materials into the AO for our Monday briefing?

Yes, and there is another draft of the annual rules presentation in your inbox that isn't due until Tuesday.

Thanks, Ann

Of course. I have my phone with me now if you need something else.

Is there anything you need for tomorrow discussion with Avi?

All set for that. Thanks

Liked â€œAll set for that. Thanks â€œ

I'm prepping Thierry and John tomorrow on your calendar for next week's scheduling meeting but if you'd like to go over it tomorrow night, I can do that.

OK. If you think it would be helpful after you go through the schedule with them, then let's connect. Thanks

Up to you. Just want to be sure you feel comfortable for next week while I'm out.

Are you by any chance still awake?

Yes, everything ok?

No

Should I call?

Please

If you have a few minutes during lunch would like to raise something to your attention
